LEADERSHIP COUNCIL

BEHAVIORAL HEALTH & COMMUNITY HEALTH WORKER

Thursday, 20 April 2023

09.00 AM

Greater Health Now empowers organizations to improve workforce capacity by providing funding, training, and resources. Greater Health Now has funded partner organizations to develop and grow the behavioral health and community health worker workforce in the Greater Columbia Region.

Greater Health Now funded seven organizations to precept behavioral health interns. Greater Health Now supported nine agencies to hire over thirty Community Health Workers.

Please join us at our April Learning Collaborative, where some organizations that received funding for these two programs will share their workforce development experience
